## **Making Your Business More Competitive with Business ...**

Business process re-engineering (BPR) is a business management strategy, originally pioneered in the early 1990s, focusing on the analysis and design of workflows and business processes within an organization. BPR aimed to help organizations fundamentally rethink how they do their work in order to improve customer service, cut operational costs, and become world-class competitors.

## **Business Process Re-engineering My Experience!**

Business Process Reengineering Steps. As we've mentioned before, business process reengineering is no easy task. Unlike business process management or improvement, both of which focus on working with existing processes, BPR means changing the said processes fundamentally. This can be extremely time-consuming, expensive and risky.

naar het Nederlands: "bedrijfsprocesverbetertechniek") is een managementtechniek en methodologie waarin een organisatie haar bedrijfsprocessen fundamenteel en radicaal herstructureert, om op deze manier grote verbeteringen binnen de organisatie teweeg te brengen.

## **Business Process Reengineering (BPR): Definition, Steps**

...

The concept of business process reengineering (BPR) is to rethink and break down existing business processes. This allows a company to reduce costs and improve productivity through newer, more efficient processes. It is important to remember however, that though there are instances where this is necessary, business process reengineering is not without its disadvantages.
